1 [A Web Odyssey: from Codd to XML](#)

Victor Vianu

May 2001 **Proceedings of the twentieth ACM SIGMOD-SIGACT-SIGART symposium on Principles of database systems**

Publisher: ACM Press

Full text available: [pdf\(282.10 KB\)](#)

Additional Information: [full citation](#), [references](#), [citations](#), [index terms](#)

2 [Model-driven development of Web applications: the AutoWeb system](#)

Piero Fraternali, Paolo Paolini

October 2000 **ACM Transactions on Information Systems (TOIS)**, Volume 18 Issue 4

Publisher: ACM Press

Full text available: [pdf\(6.94 MB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

This paper describes a methodology for the development of WWW applications and a tool environment specifically tailored for the methodology. The methodology and the development environment are based upon models and techniques already used in the hypermedia, informatic systems, and software engineering fields, adapted and blended in an original mix. The foundation of the proposal is the conceptual design of WWW applications, using HDM-lite, a notation for the specification of structure, navigation ...

Keywords: HTML, WWW, application, development, intranet, modeling

3 [Vinci: a service-oriented architecture for rapid development of web applications](#)

Rakesh Agrawal, Roberto J. Bayardo, Daniel Gruhl, Spiros Papadimitriou

April 2001 **Proceedings of the 10th international conference on World Wide Web**

Publisher: ACM Press

Full text available: [pdf\(472.82 KB\)](#)

Additional Information: [full citation](#), [references](#), [citations](#), [index terms](#)

4 [IAMC architecture and prototyping: a progress report](#)

P. Wang, S. Gray, N. Kajler, D. Lin, W. Liao, X. Zou

July 2001 **Proceedings of the 2001 international symposium on Symbolic and algebraic computation**

Publisher: ACM Press

Full text available: [pdf\(840.12 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Internet Accessible Mathematical Computation (IAMC) is a distributed framework to supply mathematical computing powers over the Internet. Presented are conceptual and experimental on the IAMC architecture, a client prototype (*Dragonfly*), client GUI, a server prototype (*Starfish*), the Mathematical Computation Protocol (MCP), mathematical data encoding, and the external compute engine interface.

5 Link services or link agents?

L. A. Carr, W. Hall, S. Hitchcock

May 1998

Proceedings of the ninth ACM conference on Hypertext and hypermedia : links, objects, time and space---structure in hypermedia systems: links, objects, time and space---structure in hypermedia systems

Publisher: ACM Press

Full text available: [pdf\(1.59 MB\)](#)

Additional Information: [full citation](#), [references](#), [citations](#), [index terms](#)

6 Evaluating the reverse engineering capabilities of Web tools for understanding site content structure: a case study

Scott Tilley, Shihong Huang

July 2001

Proceedings of the 23rd International Conference on Software Engineering

Publisher: IEEE Computer Society

Full text available: [pdf\(360.47 KB\)](#)

[Publisher Site](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [citations](#), [index terms](#)

This paper describes an evaluation of the reverse engineering capabilities of three Web tools for understanding site content and structure. The evaluation is based on partitioning Web sites into three classes (static, interactive, and dynamic), and is structured using an existing reverse engineering environment framework (REEF). This case study also represents an initial evaluation of the applicability of the REEF in the related but qualitatively different domain of Web sites. The case study ...

7 Strategies for experimental learning: Creating a microcosm of industry in the classroom

Lori L. DeLooze

October 2005

Proceedings of the 6th conference on Information technology education SIGI '05

Publisher: ACM Press

Full text available: [pdf\(206.38 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#), [index terms](#)

Electronic Commerce has challenged traditional business thinking. Electronic Businesses are expected to be always available, from anywhere in the world, rich in content and experience, customizable to the user, and conform to technology standards. Features available in such an enterprise must support both Business-to-Customer (B2C) and Business-to-Business (B2B) electronic commerce. We have designed an innovative course that teaches students how to develop an organization's Enterprise Architecture ...

Keywords: curriculum, enterprise computing

8 Facilitating process management: The technical writer as software process catalyst

Kendall V. Scott

September 2000

Proceedings of IEEE professional communication society international professional communication conference and Proceedings of the 18th annual ACM international conference on Computer documentation: technology & teamwork

Publisher: IEEE Educational Activities Department

Full text available: [pdf\(684.48 KB\)](#)

Additional Information: [full citation](#), [abstract](#), [references](#)

The emergence of a New Economy, fueled by business-to-business e-commerce and moves toward

things like component-based development, and soon to be dominated by browser-based applications, is creating a shift in focus away from user documentation and towards what we might refer to as "systems documentation." This term encompasses includes any kind of documentation that describes the technical aspects of a software system for people like systems analysts, modellers and software engineers, rather than ...
